

INSTALLATION GUIDE | **OVERSIZE PANEL** | 4000x2000 – 13000x3000 mm

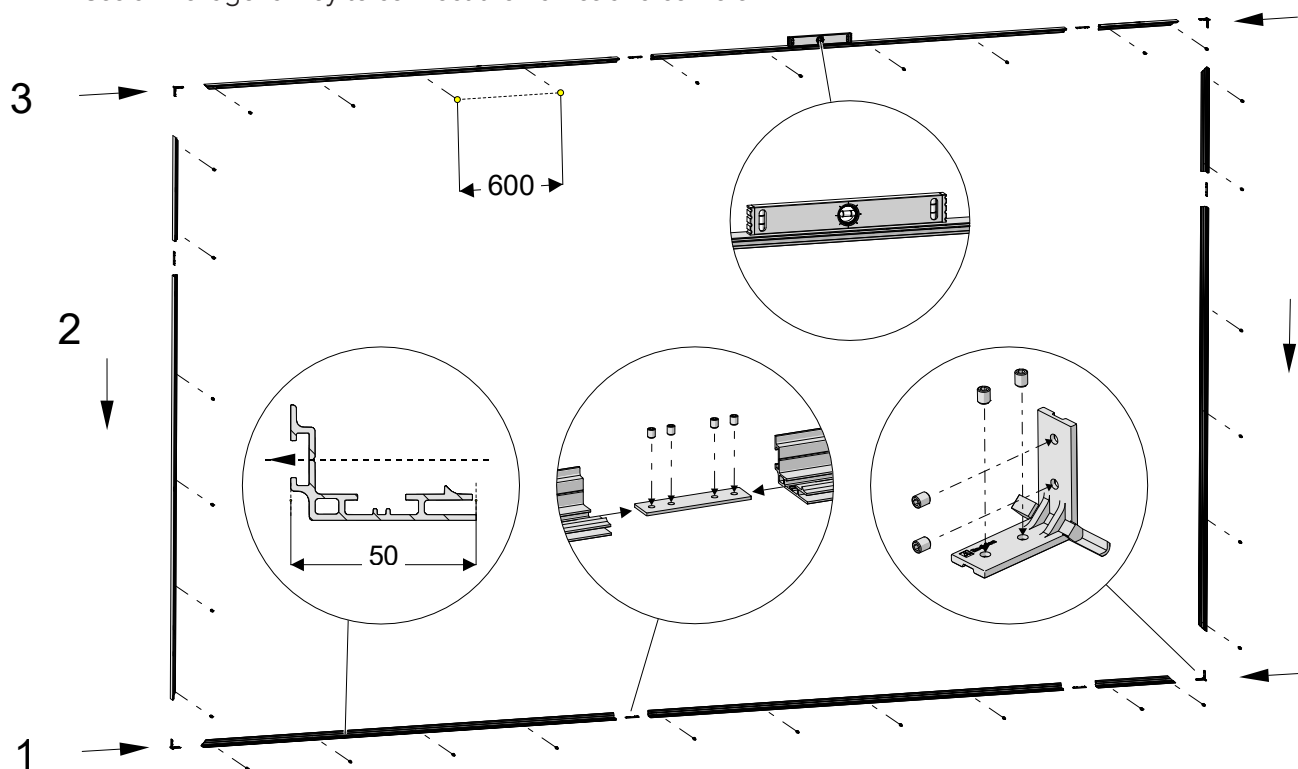

Rockfon Canva® Wall panel

Tools	Drill	Driver	Tape	Hexagonal key	Utility knife	Laser	Level
							

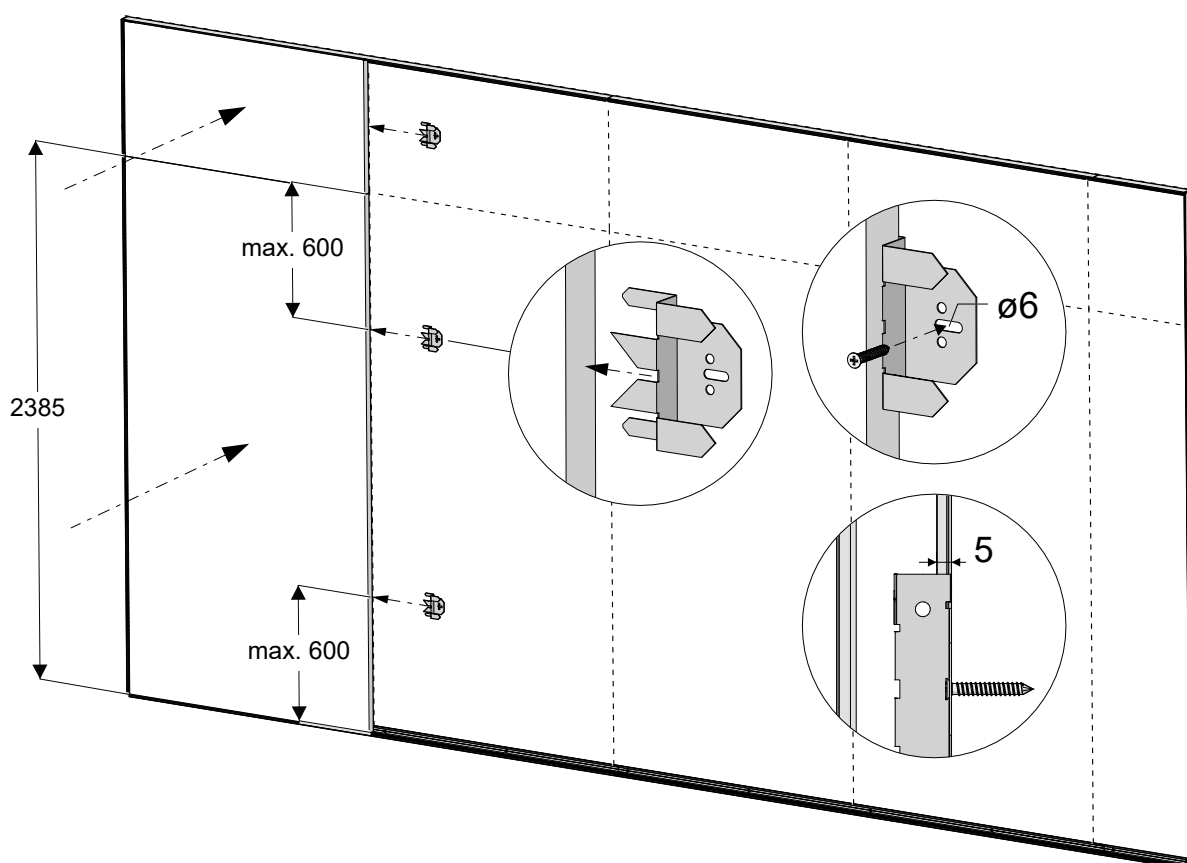

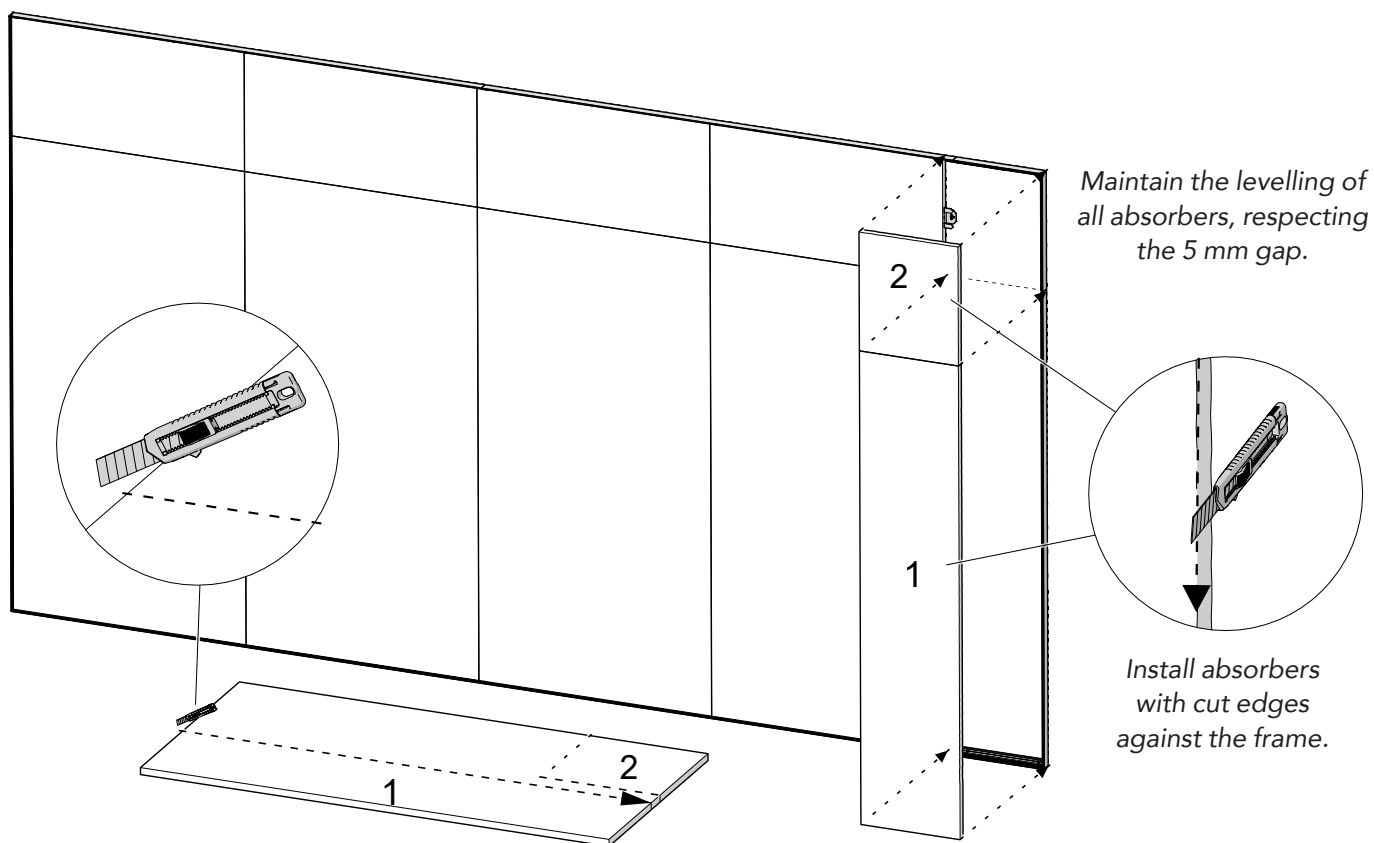

Installation (4 steps in total)

- 1 Drill screw holes in the profiles and secure them to the wall.
Use an hexagonal key to connect the frames and corners.

- 2 Insert the first absorber. Slide the connectors into the vertical side of the absorber, ensuring a 5 mm air gap between the back of the absorber and the wall, and fix them to the wall.

3 Place the absorbers firmly within the frame.

4 Attach the canvas.
